

An international trend, happening locally!

Therapeutic jurisprudence, collaborative practice, restorative justice, conscious contracts, purpose-focused estate planning, earth law, and sharing law are some of the integrative law models that are part of an international trend in law.

Globe-trotter, American Bar Association Legal Rebel, and best-selling author of two books, J. Kim Wright (jkimwright.com) will lead an interactive conversation about this international movement and how it is showing up in Hawai'i.

Kim will be joined by Lorenn Walker, a contributor to ABA best-seller, *Lawyers as Changemakers*, our hostess for this event, and several other Hawai'i lawyers involved with integrative law models.

Come to learn, be inspired, and participate in a conversation with others who are expanding what is possible in the legal profession.

Bring your Brown Bag Lunch! Coffee provided!

Questions, RSVP 539-4999
