

Incorporating ODR in Your Legal and ADR Practice A 1-hour Presentation and Demo by Giuseppe Leone

May 12, 2020 at Noon

A Webinar Presented by the ADR and Litigation Sections of the
Hawaii State Bar Association

During this event, you will learn:

1 - How you can do online everything you are used to doing with your clients in-person at your office: e.g. joint and private meetings with the parties, breakout rooms, information (documents, pictures, videos) sharing, writing up the parties' settlement agreement or agenda for their next meeting, how participants can join in by phone.

2 - How secure are your services (i.e. mediation, arbitration, litigation) when you deliver them online.

3 - Some best practices, which are particularly useful when your clients are connected by video or by phone.

Please Note: Although this online event will be held with a video conferencing software called Zoom, most topics and best practices presented during the event apply equally well if you prefer to use a different video conferencing software: e.g. Cisco Webex, GotoMeeting, Adobe Connect, and so on.

To Register: Right click this Zoom online registration link and click open hyperlink
